

May 12-16, 2018 | Sheraton Inner Harbor Hotel | Baltimore, MD

9th Annual

Biotherapeutics Analytical Summit

Empowering Innovation with the Right Tools and Techniques

Conference-at-a-Glance

BiotherapeuticsAnalyticalSummit.com

	March 12-13 (Mon-Tue)	March 13-14 (Tue-Wed)	March 15-16 (Thu-Fri)
Conference Programs	 Method Development Qualification & Validation	 Advances in Characterization Methods & Approaches	 Comparability & Biosimilarity
	 Characterizing Aggregates & Impurities		
TS Training Seminars		TS1: Core Principles and Best Practices for Biotech Analytical Test Methods across the Product Lifecycle	TS2: Regulatory Requirements across the Product Development Lifecycle
	Monday, March 12: 6:00-8:30pm	Wednesday, March 14: 6:00-8:30pm	
SC Short Courses	SC1: Particles in Biotherapeutics: Characterization & Impact	SC3: Critical Quality Attributes and Testing Strategy for Biotherapeutics Development	<i>*Separate registration is required for short courses.</i>
	SC2: The Multi-Attribute Method (MAM) for Improving Product and Process Development	SC4: New Analytical Approaches & Strategies for Biosimilarity
